

This course is provided in association with our Gold Partners, Scaled Agile Inc.

Audience

The following individuals will benefit from this course:

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA and Infrastructure Management
 - Program and Project Managers
 - Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System and Solution Architects

Pre-requisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SA certification exam.

- 5+ years experience in software development, testing, business analysis, product or project management
- Experience in Scrum

Certification

Attending the class prepares you to take the exam and become a certified SAFe® Agilist (SA). The SAFe Agilist certification program is for executives, managers and Agile change agents responsible for leading a Lean-Agile change initiative in a large software enterprise.

Leading SAFe® 4.0

This two-day course teaches the Lean-Agile principles and practices of the Scaled Agile Framework® (SAFe®). You'll learn how to execute and release value through Agile Release Trains, how to build an Agile Portfolio, and how to lead a Lean-Agile transformation at enterprise scale. You will gain an understanding of the Lean-Agile mindset and how to apply the principles and practices of SAFe to support Agile teams, programs, program portfolio management, and to coordinate large Value Streams. Attending the class prepares you to take the exam and become a certified SAFe® Agilist (SA).

Duration: Two days

Approach: Classroom Training
