

This course is provided in association with our Gold Partners, Scaled Agile Inc.

Audience

The course is intended for those who will be materially and directly involved in a SAFe adoption. This includes enterprise leaders, practitioners, change agents, and consultants responsible for implementing Agile programs and portfolios as part of an enterprise Lean-Agile change initiative.

Pre-requisites

All stakeholders in a Lean-Agile transformation are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SPC certification exam and operate in the field as a SAFe Program Consultant:

- 5+ years of experience in software development, testing, business analysis, product or project management
- 3+ years of experience in Agile
 - One or more relevant Agile certifications

Certification

This course leads to SAFe Program Consultant (SPC) certification upon passing the SPC exam

What you Get

Ivar Jacobson International provides attendees with a toolkit of ready to go assets that you help you put SAFe into action. Uniquely created by our team of experienced consultants!

Implementing SAFe® with SPC Certification

Our SPC courses are delivered by two of the industries leading subject-matter experts on the Scaled Agile Framework®. IJI consultants have extensive SAFe experience training and implementing SAFe at organizations with teams ranging from 50 to 3000.

Certify as a SAFe Program Consultant and become the Lean-Agile Change Agent that leads the SAFe transformation in the enterprise.

Duration: Four days

Approach: Classroom Training

Description

This four-day course will prepare you to lead an enterprise Agile transformation by leveraging the Scaled Agile Framework® (SAFe®). You will learn how to effectively apply the principles and practices of SAFe, including training with SAFe courseware, and coaching teams, launching Agile Release Trains, and building and managing an Agile portfolio. The first two days of the course— Leading SAFe—will provide you with the basis to teach SAFe to others, and if certified you'll be eligible to teach the Leading SAFe course. The next two days focus exclusively on implementing SAFe.

Certification is optional to attendees. Those who achieve SPC certification are authorized to license SAFe training materials.

After this course, you should be able to:

- Lead an enterprise Lean-Agile transformation
- Implement the Scaled Agile Framework (SAFe)
- Implement and manage a Lean-Agile portfolio
- Align the organization to a common language and way of working
- Perform value stream analysis and identify value streams
- Launch and support Agile Release Trains and coordinate value streams
- Build and execute the implementation rollout strategy
- Configure the Framework for a specific enterprise context
- Train managers and executives in Leading SAFe and act as a SAFe Agilist (SA) certifying agent (SPCs only)
- Train teams in SAFe for Teams (S4T) and act as a SAFe Practitioner (SP) certifying agent (SPCs only)
